# Moscow International Symposium on Magnetism MISM-2014

29 June – 3 July 2014

Lomonosov Moscow State University

<http://mism.magn.ru>

The Moscow International Symposium on Magnetism (MISM) was held at Moscow State University in 1999, 2002, 2005, 2008 and 2011. The latter meeting MISM-2011 had gathered more than 750 scientists from 44 countries. From the first MISM-1999, the Symposium keeps the status of the largest international meeting on magnetism among those taking place in Russia. The Organizing Committee has decided to focus MISM-2014 on the most actual topics of modern magnetism. In addition to plenary talks of tutorial character and invited talks of leading scientists only top-level original contributions will be considered by the Program Committee. We also think that it is reasonable to limit the number of participants to 400-500 people to ensure high quality presentations.

Note that the invitation letter is not the only document to obtain a visa.

Please, email to Conference Office what you would like to see in Moscow.

## Climate and other practical things

Expected daytime temperatures in June vary between 16 and 25 C. The possibility of rainy weather cannot be excluded. The life in Moscow seems to be more peaceful and comfortable that one can see on TV or read in newspapers. At least, there were no incidents with numerous foreign visitors of Moscow State University. Please, do not hesitate to ask by email any questions concerning your future staying in Moscow

## LOOKING FORWARD TO SEE YOU IN MOSCOW!
